

Website Design & Maintenance Framework

Flexible Project Pricing, Payment Plans & Growth Retainers for Trinidadian Businesses

1. Dynamic One-Time Development Cost

Web projects are customized around your business goals. Estimates are built dynamically utilizing the following baseline scales:

Website Configuration	Investment Range (TTD)	Typical Scope & Deliverables
Core / Starter Site (Base Price)	TT\$1,500	Mobile-first design, homepage + essential layout, contact form, cloud infrastructure setup.
Standard Business Site	TT\$2,500 - TT\$5,000+	Multi-page setup (5-7 pages), customized services portfolio, on-page local SEO layout, custom lead generation.
E-Commerce Integration	TT\$5,500 - TT\$15,000+	Full product catalog setup, inventory management, secure checkout, and local payment gateway mappings (WiPay / Fygaro).

Flexible Loyalty & Scale Discounts

- **Promotional Adjustments:** For qualified micro-enterprises or structural promotions, a customized loyalty discount can lower the starting tier to an absolute minimum of TT\$1,000.
- **Volume Scale:** Multi-site packages, consecutive brand launches, or high-value retainers are eligible for adaptive upfront price adjustments.

2. Ongoing Operation & Care Retainers

To ensure your web asset remains fully secure, lightning-fast, and optimized to capture active Trinidadian leads, choose a monthly care tier. **Please note that monthly care retainers are entirely optional.**

Retainer Plan	Monthly Investment	Key Inclusions & Growth Impact
Secure Digital Care	TT\$250 - TT\$300/mo	Continuous cloud environment mapping, regular security patches, offsite automated data backups, and 1 included text/image edit allowance per month.
Local Lead Growth (Recommended)	TT\$500 - TT\$800/mo	Everything in Secure Care, plus proactive Local Google SEO optimizations, continuous conversion monitoring, and Google Business Profile tuning.
Active Marketing Partner	TT\$1,500+/mo	An outsourced web team setup. Routine landing page layouts for ad campaigns, deep performance reporting, and conversion funnel iterations.

3. Flexible Payment Plans

Not every business can pay for a website all at once, and that should not hold you back from getting online. Choose the payment option that fits your budget; every option delivers the same website and the same quality of work.

Payment Option	How It Works	Best For
Standard (50 / 50)	50% deposit to begin development; remaining 50% on final layout approval, before launch.	Clients who prefer to settle the project quickly.
Milestone Split (3 Parts)	One-third to begin; one-third on design approval; one-third before launch. No extra charge.	Spreading the cost across the build itself.
3-Month Instalment Plan	30% deposit to begin; the balance plus a 5% plan fee in 3 equal monthly instalments, the first due at launch.	Small businesses managing monthly cash flow.

What It Looks Like in Practice

Example Project	Pay in Full (50/50)	3-Month Plan
Core / Starter Site TT\$1,500	TT\$750 to start TT\$750 before launch	TT\$450 to start then 3 × TT\$367.50 Total TT\$1,552.50
Standard Business Site TT\$3,500	TT\$1,750 to start TT\$1,750 before launch	TT\$1,050 to start then 3 × TT\$857.50 Total TT\$3,622.50
E-Commerce Integration TT\$8,000	TT\$4,000 to start TT\$4,000 before launch	TT\$2,400 to start then 3 × TT\$1,960 Total TT\$8,280

Example prices are for illustration; your plan is calculated on your final quoted project fee. Amounts are rounded to the nearest cent.

Payment Plan Terms

- **Getting Started:** Every plan begins with its deposit, which reserves your place in the development schedule.
- **Launch:** Your website goes live on schedule; you do not need to finish paying before launch on an instalment plan.
- **Due Dates & Reminders:** Instalments are invoiced monthly on the same date as your launch, with a reminder sent 3 days before each due date. Payment is accepted by bank transfer, WiPay or Fygaro.
- **Late Payments:** If an instalment is more than 14 days overdue, we will contact you first. If it remains unpaid after 30 days, the website may be paused until the account is brought up to date.
- **Ownership:** Full ownership of the website files and design transfers to you once the project fee is paid in full.
- **Paying Early:** You may settle the remaining balance at any time. On the 3-Month Plan, paying early removes the unused portion of the plan fee.
- **Separate From Care Plans:** Instalments cover the one-time development cost only. Monthly care retainers, if chosen, are billed separately.

4. General Terms & Next Steps

- **Mobilization Deposit:** A deposit is required to queue development work: 50% of the agreed one-time project fee on the Standard option, or the deposit set out in your chosen payment plan (Section 3). On the Standard option, the remaining 50% balance is settled upon final layout approval prior to global launch.
- **External Infrastructure Assets:** Third-party commercial domain registration fees (.com, .tt) are handled as direct client responsibilities unless explicitly packaged.
- **Retainer Billing:** Care packages are automatically invoiced on a recurring calendar cycle. Prepaying annually grants a structural 10% loyalty discount on the maintenance framework.
- **Domain-Only Alternative:** Monthly maintenance is fully **optional**. Clients may choose to opt out of a care plan and instead switch to a baseline **TT\$75 yearly fee**, which goes strictly towards maintaining the domain name registration.
- **On-Demand Updates & Ad-Hoc Support:** If you experience any errors, issues, or have updates you would like to implement, you can reach out directly for a manual update. Pricing for ad-hoc requests is structured as follows:
 - **Minor Updates / Image Changes:** TT\$10 per individual update.
 - **Error Resolution / System Problems:** TT\$150 to TT\$250 TTD depending on complexity.
