Your E-commerce Quote

Online boutique, admin dashboard and in-store point of sale
Prepared for: _____

PROJECT FEE	CARE PLAN (RECOMMENDED)	QUOTE VALID UNTIL
TT$16,000 or 2 phases: TT$10,500 + TT$5,500	**TT$600 /month**	**12 November 2026** Issued 13 October 2026

1. What's Included

A custom system designed in your brand colours, built for both your online boutique and your physical store. Your website and your shop use **one shared stock count**, so a sale in either place updates the other automatically.

Part	What You Get	Price
Online Store	Brand design based on your demo • product pages with size and colour options • shopping cart • secure card checkout through WiPay • delivery and pickup options • order confirmation emails • mobile friendly	TT$6,500
Admin Dashboard	Secure login for you and your staff • products with sizes, colours and individual SKUs • stock tracking for every variation • low-stock alerts • order management with status updates (e.g. paid, packed, out for delivery, collected) • discount codes and sale prices • sales reports (sales by day/month, best sellers, stock value)	TT$6,000
In-Store Point of Sale	Ring up walk-in sales on a tablet or phone • search or scan products • record cash, card or transfer payments • apply discounts • stock syncs instantly with the online store • daily sales summary	TT$2,500
Setup & Training	Domain and email setup • loading up to 50 products with all variations • 2 training sessions • a simple how-to guide for you and your staff	TT$1,000
Total		**TT$16,000**

2. Option: Build in Two Phases

If you would like to spread the cost, we can launch your online boutique first and add the in-store system when your physical store is ready. The total price stays the same.

Phase	Includes	Price
Phase 1: Online Boutique	Online store, admin dashboard (products, stock, low-stock alerts, orders, discount codes, basic sales reports), setup and training	TT$10,500
Phase 2: Physical Store	In-store point of sale, stock sync between store and website, combined in-store and online sales reports, staff training	TT$5,500

Phase 2 can start any time after Phase 1 launches, at this price for up to 6 months from this quote.

3. Your Payment Options

Choose whichever option suits your budget. The 3-Month Plan includes a 5% plan fee on the balance after your deposit; the other options have no extra fees. If you choose two phases, each phase is paid 50% to start and 50% before its launch.

Option	What You Pay	Total
Standard (50 / 50)	TT$8,000 to start TT$8,000 before launch	TT$16,000
Milestone Split	TT$5,333.33 to start TT$5,333.33 when you approve the design TT$5,333.34 before launch	TT$16,000
3-Month Plan	TT$4,800 to start then 3 monthly payments of TT$3,920 from launch	TT$16,560 includes TT$560 plan fee

4. Monthly Care Plan (Recommended): TT$600/month

Because your store handles payments, stock and customer orders, regular care keeps it secure and running smoothly. The care plan is **separate from your project payments**, starts at launch, and you can stop it at any time.

	With the Care Plan (TT$600/month)	Without the Care Plan
Security & backups	Security updates, daily backups and uptime monitoring	Not included
Fixing problems	Covered	From TT$250 per fix
Changes & help	Up to 2 hours of changes each month (new features, banners, promotions, page edits) and WhatsApp support	TT$200 per hour

- **Stop any time:** your store stays online and stays yours. Only the maintenance stops.
- **Save 10%:** pay for a year of care up front and pay TT$6,480 instead of TT$7,200.

5. Running Costs (Paid Directly by You)

These accounts are set up in **your name**, so you own them.

Item	Details	Cost
Domain name	Your web address, e.g. yourboutique.com	About TT$75/year
Hosting & database	Free to start; a paid plan is only needed as your store grows	TT$0 to about TT$175/month
Online card payments	WiPay processing fee on each online sale	Per transaction
In-store card payments	Use your existing bank card machine; the sale is recorded in the point of sale	Your bank's fees

6. Timeline: 4 to 6 Weeks

Week	What Happens
Week 1	Final design approved, accounts set up, product list collected
Weeks 2 to 3	Online store and admin dashboard built; you review progress
Week 4	Point of sale built and connected to stock
Weeks 5 to 6	Products loaded, full testing (orders, payments, stock, discounts), training, launch

The timeline starts once the first payment and your product information are received.

7. What You Need to Do

- **Choose** the full build or two phases, and your payment option.
- **Pay your first payment** when you are ready to go ahead. Nothing is due until then. Payment is accepted by bank transfer, WiPay or Fygaro.
- **Send your product list:** names, prices, sizes, colours, current stock and photos (a simple spreadsheet template will be provided).
- **Set up a WiPay merchant account** for online payments (we will guide you through it).
- **Review and approve** the design and a test order before launch.

Good to Know

- Up to 50 products are loaded for you. Extra products are TT$30 each, or you can add them yourself in the dashboard.
- Features not listed in this quote (for example a customer loyalty programme or a mobile app) can be quoted separately.
- You may pay off the balance early at any time. On the 3-Month Plan, paying early removes the unused part of the plan fee.
- Full ownership of the website and its files transfers to you once the project fee is paid in full.
- If a payment is more than 14 days late we will contact you; after 30 days the store may be paused until the account is up to date.

This quote was issued on 13 October 2026 and its prices are held until 12 November 2026. No payment is due until you decide to go ahead. All amounts are in Trinidad and Tobago dollars (TTD).
